PROGRAM

Leading arbitration, cybersecurity and data protection specialists will discuss techniques for managing cybersecurity and data protection during international arbitration proceedings in two interactive panels. The panelists include members of the task forces that prepared the ICCA-NYC Bar-CPR Cybersecurity Protocol for International Arbitration and the draft ICCA-IBA Roadmap to Data Protection in International Arbitration, which will form a basis for the discussion. This program is particularly timely with the coming into force of the California Consumer Privacy Act, the impact of which will also be considered by the experts.

**4.30 -
5.00 PM**

Registration

**5.00 -
5.15 PM**
